

International Union of Judicial Officers
Union internationale des buissiers de justice

Invitation

to the online European Roundtable on the future of enforcement of claims and cross-border judicial cooperation

8 July 2021

The International Union of Judicial Officers (<https://www.uihj.com/>) invites you to a European Roundtable aiming to bring together policy makers, enforcement agents and selected stakeholders in order to initiate discussion on the future of cross border enforcement in the area of e-justice.

The Roundtable is held in the framework of the 'EU Enforcement Atlas' research project, and will also present the project's research findings. The 'EU Enforcement Atlas' complements the Find A Bailiff initiative by collecting, and making available, information on the services offered by enforcement agents, and the conditions for their provision. Information has been collected on enforcement legislation, procedures, expenses and professionals, across all 30 EU enforcement systems (EU-28 including the UK); has been comparatively analyzed and presented in a user-friendly way, with the use of visuals and infographics.

We invite you to join us in this interactive, online, event. For registration following link can be used: https://us02web.zoom.us/webinar/register/WN_jCl_IM7cR3GR9vUTyVOoKw

The draft agenda is attached. The final agenda will be sent to confirmed participants before the event.

Sincerely yours,

Marc Schmitz
President UIHJ /UEHJ

Jos Uitdehaag
Secretary UIHJ
